

01 Start now.

02 **Wait until the door-open condition becomes true.**

03 Turn on the entrance light.

04 **Repeat until the entrance door is closed:**

05 Run Speaker.Speak(Text=Please close the door.).

06 **Wait until the entrance door is closed**

07 **or 30 seconds elapse, whichever is first.**

08 **If closed, stop the current repeat loop.**

09 **Otherwise, repeat with no additional wait.**

10 After the loop:

11 **Turn off the entrance light.**

12 Finish.
